IN BRIEF

Horizon is a small development of 30 apartments surrounded by greenery. Located on the north side of the plot in order to offer its future occupants the best possible exposure, the development has a reasonable height of 4 levels, including an attic floor that is entirely set back. It is particularly well designed program that fits well into the community, which is made up of individual housing and small collective housing units. It adopts a sober contemporary style, a chromatic range and a palette of materials, all of which guarantee durability: textured concrete base and overhanging roof, white opaline glass railings with a metal structure, light grey rendering, light grey joinery, etc.
