Plot Size:	855 m2

IN BRIEF

Located in a quiet, sought after hamlet, backing onto open countryside this 855m2 flat building plot has large garage in excellent condition which can easily be transformed into an 80m2 home over 2 floors with minimal investment.

The basic structure is a recent construction with solid foundations, concrete pad, concrete block walls with existing windows and door openings and a roof in perfect watertight condition. The plot is entirely constructible so it can easily be extended to create a large spacious house with a pool and separate garage.

DESCRIPTION

This is a brilliant chance to do a new build project without the requirement to break ground to start building. Initially the existing building can be fitted out with the advantage of working within a weathertight structure with no structural work required.

The building can easily be insulated externally with underfloor heating added to the ground floor. The open space is a blank canvas to design your perfect layout. Electricity and water are available on the edge of the property. A septic tank will need to be installed (around 12,000€) although there are so far unscheduled plans to eventually connect the hamlet to the mains.

18km from Lake Annecy at Saint Jorioz in a quiet and sunny location

Close to the center of Bellecombe-en-Bauges with a primary school and a school bus service, a boulangerie and a very good restaurant
