## NOTES

### DESCRIPTION

Some complicated works are already complete such as the pouring of concrete levels, and some new doors and windows on the lower level, and piping of the stream for water

A 5000kw pellet boiler is already on site and there are estimates and studies for solar panels and batteries.

The thing that makes this Alpage different is that access is from the main road D902 , and it can be accessed most of the year with a  $4\times4$  . In very snowy conditions the last 500m accross flat ground would be via sledge .

The surrounding land is agricultural so now other developments are permitted.

This property also comes a with a 100 year lease on the surrounding agricultural land which is perfect for complete off grid living.

There are no plans to connect this Alpage to the mains water and Grid
