NOTES

DESCRIPTION

The detached house has a garage and 37m2 floor area split into 2 rooms accessed from the fabulous stone staircase. It's an easy renovation due to excellent floor and roof timbers plus window openings just awaiting windows. It has the potential of around 60 - 70m2 habitable including the loft space plus large garage and utility room on the ground floor.

The barn has a 130m2 footprint plus an extra 50m2 in the lean-to vehicle store at the back of the barn which, with its mountain views could be the focus of the eventual house. Developing the ground floor only would give 180m2 habitable with another 130m2 habitable on the second floor.

Both properties will require planning permission and the mains sewage connection is available directly on the property
