IN BRIEF

Located in the centre of St-Priest-les-Fougères a short walk from an award-winning patisserie, this versatile 3-bed house has excellent energy credentials thanks to being well-insulated, double glazed (2018), heated and cooled by a Weisseman air water heat pump (2017), and having solar panels for both electricity and for a thermodynamic hot water tank. As well as the ground floor and first floor, an attic covers the full surface area of the house. The ground floor comprises a lounge diner, kitchen, bedroom and shower room with WC. The first floor includes two bedrooms, a dining room, a kitchen, a bathroom, and a sunny double glazed veranda (2018) opening onto a terrace, ideal for a container garden. Enclosed gardens surround the rear of the house where mature shrubs preserve privacy. Further amenities are nearby in La Coquille: Train station, bars...
