NOTES

DESCRIPTION

The property is in need of full refurbishment throughout, including but not limited to the installation of double glazing, insulation of both walls and roof, updated plumbing, a new kitchen and bathroom, and complete rewiring. However, it does benefit from being already connected to the mains drainage system—eliminating the need for a septic tank, which is a significant advantage for a rural village property.

Internally, the layout currently comprises four main rooms, with an additional adjoining room that could be opened up to integrate more seamlessly with the rest of the living space. There is also a small stone outbuilding that has the potential to be transformed into a charming entrance to the rear of the house, adding both functionality and character.

An external staircase provides access to the upper level, meaning that an internal staircase would need to be installed as part of the renovation. WC facilities are currently located in the outbuilding directly adjacent to the property.

Once the large established garden is cleared and landscaped, it will reveal stunning views of the surrounding countryside, offering the new owner a tranquil and picturesque outdoor space to enjoy.

This is a unique opportunity for anyone seeking a character-filled home renovation in a peaceful location, with great long-term potential. Contact me for more details.
