DESCRIPTION

Ideally located between major ski areas and a very popular thermal centre, this large semi-detached house of approximately 210 m² total floor area represents an exceptional opportunity for an investor or a family looking for a versatile property.

On the ground floor, there are two one-bedroom apartments (T2), perfect for seasonal, thermal, or year-round rentals. One offers a surface area of around 42 m² and the other 24 m².

The first floor features a bright and functional two-bedroom apartment (T3) of approximately 70 m², benefiting from its own independent entrance.

The second floor, with a total floor area of 70 m² (including 8.7 m² below 1.80 m ceiling height), currently consists of two bedrooms, a living room, a bathroom, a WC and a kitchen. It also benefits from an independent entrance, while remaining connected internally to the house, and offers significant potential for reconfiguration: creation of a new apartment, extension of the first-floor T3 into a duplex, or optimisation according to your project.

Outside, a private garden of approximately 100 m² offers a pleasant space for outdoor dining, relaxation or landscaping.

The property also includes a cellar and a parking space — two valuable assets in this sector.

While refurbishment work is required, the house benefits from a solid structure, excellent natural light and substantial potential for value enhancement. Whether you are considering long-term rental, seasonal income, division into separate units or a resale-by-lot strategy, the possibilities are extensive.
