DESCRIPTION

Need to know: the purchase of this house sold off-plan (VEFA) comes with meaningful economic benefits, including reduced conveyance fees of around 2-3% (compared to 7-8% for older properties), high-performance sound insulation and energy efficiency built to RE2020 environmental standards (2025 threshold). You also benefit from exemption from property tax for the first two years, a delivery guarantee ensuring the completion of the development, a 10-year structural construction guarantee, a 2-year guarantee on fittings and equipment, and a perfect-completion guarantee covering any minor defects appearing during the first year. On finishes, ground-floor living areas are fitted with underfloor heating and tiled flooring, while bedrooms upstairs feature engineered wood flooring and radiator heating; heating and hot water are provided by an air-water heat pump, and each house includes a smart home system for centralised control of shutters and heating via a wall panel and mobile app. These protections mean genuine peace of mind and no major renovation work to undertake for years to come - in short, a home that's easy to live in and easy to manage.

House M6 (Maison Seofoam) sits alongside M7 as one of the domain's two-level (R+1) South-facing houses, offering 100.17m² of interior space, a 10m² terrace, and a generous 172m² private garden - among the larger plots of the collection. The single-storey-plus layout suits buyers who prefer to avoid an extra flight of stairs, while still enjoying full South light and a genuinely spacious garden.
